Because quality matters. Paveloc creates unsurpassed textures and color blending in all of our products and provides strength and durability that far exceeds industry standards. From the smooth surfaces of our standard pavers to the lifelike carvings in our textured stones, Paveloc’s surface textures are second to none. Our color blending provides a visual appeal that creates a perfect addition to any home. Paveloc’s products are tested regularly and not only meet, but consistently exceed industry standards for strength and durability. Choosing Paveloc lets you relax your mind knowing you chose the right product, while you relax your body on a patio you absolutely love.

**OUR WARRANTY**

Paveloc provides a Transferable Lifetime Guarantee* on the structural integrity of our paving stones, slabs and retaining wall units to the original purchaser of the product for residential use. Any materials installed and maintained to our guidelines, and subject to normal wear, that prove defective, will be replaced without cost. Color matching cannot be guaranteed and replacement labor is not included. Proof of purchase is required.

*Transferable Lifetime Guarantee
Register your project within 60 days of your dated proof of purchase to ensure your Paveloc Guarantee is fully transferable! Simply go online at paveloc.com and follow the registration instructions. Once processed, you will receive an original Transferable Warranty Certificate for your records.

**ENDURACOLOR™**

A traditional manufacturing process which incorporates a concentrated mix of wear resistant materials on the surface of the stone to enhance color and wear performance extending the aesthetic longevity of the stone surface.

This symbol indicates that the Paveloc product you are looking at facilitates the flow of water from the surface into the joints and into the ground below. Paveloc’s exclusive line of permeable pavement products, indicated by this symbol, are recognized and awarded with internationally accepted Leadership in Energy and Environmental Design (LEED) credits required by the Green Building Rating System™ to certify green building construction.

Notes: Sold in full bundles only. All measurement are nominal.
Important: Textured surfaces require a buffer between the plate compactor and the paver surface to prevent scuffing.
When half units are placed together, they form a regular size unit. Install by layer to avoid identical units side by side.

To eliminate a continuous line in the installation pattern, units G & F should never be installed one directly beneath the other.

Flagstone is a textured surface paving stone that requires specific guidelines for compaction. See back cover for more details.

Measurements are nominal. *20 Face Feet Per Pallet when installed as a freestanding straight wall. **Each pallet includes 8 End Caps with one straight edge.
Notes: 4 Ledgestone end coping units can be used to cap pillars larger than 20". That leaves a small opening for lighting.

Coping is rock-faced on the front and the back.

Closed-end coping is rock-faced on 3 sides, front, end, and 1 side. Unit can be used as a right or a left end.

All caps require a skid that is refundable upon return in good condition. All measurements are nominal.

Pillar caps can be sold individually. 5 sections/pallet, 1 unit per section.

Notes: Straight Pallet includes a minimum of 8 right and 8 left corner stones. Radius Pallet includes a minimum of 2 right and 2 left corner stones. Cap Pallet includes a minimum of 4 right and 4 left corner stones. Corner Stones on the Corner package DO NOT HAVE insert grooves. Maximum height 24" - 36" depending on site conditions. To construct higher walls, contact a Paveloc representative. Inserts (connectors) included with every pallet. * prior to splitting.

**TYPICAL CRETA™ STONE RETAINING WALL INSTALLATION & CROSS SECTION DIAGRAMS**

Typical installation using “Non-Woven Geotextile” (when required)

The PVC inserts align the wall and provide an interlock between layers.

- Place two PVC inserts into the specified groove of each Creta™ Stone.
- For vertical walls, place the PVC inserts in the front grooves.
  For 4" (or 3/8") set back walls use the back grooves.

The PVC inserts align the wall and provide an interlock between layers.

- Bench excavation bank for stability and installer’s safety.

**TYPICAL VERTICAL WALL APPLICATION**
Use the front alignment groove to create a straight wall.

**TYPICAL 4° WALL SETBACK APPLICATION**
Use the rear alignment groove to create a 4° batter wall.
To create an outside corner, follow these simple directions. Remember to set aside the corner stones. First, split the corner stones. There are a minimum of (8) large right and (8) large left stones on each pallet of straight wall, and (2) large right and (2) large left stones on each pallet of radius wall which may be used as corner stones by splitting the end off with a chisel or mechanical stone splitter. To roughen up the split end of the Creta™ Stone corner you just made, use the small scrap piece and rub the split end of the large stone until the tumbled look is achieved.

The minimum radius that can be achieved using the Creta™ Stone Radius Wall package is a three foot outside radius or six foot outside diameter, at the top course, using all three stone sizes as shown.

TO CALCULATE THE RADIUS OF THE BOTTOM ROW OF A CRETA™ STONE WALL WITH A 4° BATTER, JUST FOLLOW THE STEPS BELOW.

• Divide wall height by .42 (height of a Creta™ Stone wall stone in feet). This will give you the number of Creta™ Stone courses in the wall.
• Multiply the number of courses by 3/8” (.375) setback.
• Add the three-foot minimum radius to this number to get the radius at the first course.

BUILDING STEPS USING THE STEP PACKAGE

Follow Basic Installation procedures for preparation and excavation of base leveling pad. Install Creta™ Stone on the base leveling pad per the base course instructions. Be advised that the bottom layer should be duplicated and buried for stability. The actual design, number of risers and treads will vary depending on the architect design specifications. The area behind the first step unit and each step unit must be filled with base material compacted to maximum density in 3 to 4 inch lifts. Desired tread depth can be achieved by varying the amount of overlap of the step unit above.
BULLET EDGER

SnapEdge - One-Piece Edging That Does It All!

- Only one part required for straight runs or curved installations.
- Built-in connector fastens one piece to the next – convenient 96” size, makes them easy to transport.
- Unique ‘Snip and Flex’ feature speeds installations of curves and corners without pre-planning.
- The open design allows a root system to grow through SnapEdge, further reinforcing the installation.
- Engineered to provide a strong, easy-to-install edge restraint for concrete/clay pavers.
- Nail hole bosses are full-length cylinders. Hammer blows will not fracture or force nail heads through edging.

PermEdge Permeable Paver Edging

- Designed specifically for permeable pavement with open graded base material.
- Holds pavement edges securely in place.
- Does straight and curved edges.

All Element fireplaces are prebuilt in the factory and can be installed in any location accessible by forklift.

Typical Cross Section for Concrete Pad Installation

**Guarantee:** The standard Paveloc guarantee applies to the units used to construct Paveloc Elements. Third party grills and fireboxes carry their respective manufacturer’s warranty, and may change without notice.

Note: Paveloc reserves the right to change model designs, accessories and colors without notice. Paveloc will not be responsible for improper use or handling that results in property damage. Some models may not be exactly as shown. Fireplaces come complete with UL-approved stainless steel fireboxes. Check local building codes and regulations prior to ordering and installing Paveloc Elements.
**CLEANING PRODUCTS**

**HC HARDSCAPE CLEANER RS-CLN030**
General purpose cleaner removes ground-in dirt from pavers and slabs as well as poured or stamped concrete, natural stone, etc. Non-corrosive, HC HARDSCAPE CLEANER works without damaging or discoloring the material. It brightens color, cleans evenly, and enables Sealers/Protectors to better penetrate the material. Recommended for both bare and previously sealed surfaces.

Packaging  
• 1 gallon container
**

**TECHNISEAL PROFESSIONAL GRADE OIL & GREASE REMOVER RS-CLN001**
Professional Grade Oil and Grease Remover is an industrial strength petroleum-based product. It lifts and absorbs embedded oil and grease stains as it dries from a liquid to powder. Specially formulated for concrete pavers, slabs walls, natural stone, poured or stamped concrete, etc. Works without damaging or discoloring material and is easy to use.

Packaging  
• 1 quart container  
• 6 per case  
• 100 cases per skid (600 qts)
**

**TECHNISEAL PAVER PRIMER & EFFLORESCENCE REMOVER RS-CLN002**
Paver Primer is specially formulated to dissolve efflorescence (whitish salt deposit) and remove ground-in dirt on paving stones and concrete, without discoloring or damaging surfaces. It cleans evenly, and enables the sealant to better penetrate the material to be treated.

Packaging  
• 1 gallon  
• Box of 4 x 1 US gallon  
• 45 cases per skid (180 gallons)  
• 150 sq ft approximate coverage
**

**TECHNISEAL RUST REMOVER RS-CLN012**
Paver Cleaner cleans rust from paving stones and concrete without discoloring the surface.

Packaging  
• 1 quart container  
• 6 per case  
• 120 cases per skid (720 qts)
**

**TECHNISEAL PAINT, TAR, & RUBBER REMOVER RS-CLN007**
Description: Paver Cleaner thoroughly dissolves paint, tar or bitumen, rubber and chewing gum, from paving stones, concrete, and masonry.

Packaging  
• 1 liter container (1US qt)  
• 6 per case  
• 120 cases per skid (720 x 1 liter/ 720 x 1 US qt)
**

**TECHNISEAL PAVER MAID RS-CLN025**
Description: Paver Maid kit contains a 16oz Professional Oil & Grease Remover, a 12 oz Organic Stain Remover, a 16 oz Remover for Pavers, a 16oz Rust Remover and a brush.

Refer to product information labels for all handling and application procedures.

**

**Note: Carefully read all instructions and safety information on product label prior to application. For additional safety information, see MSDS.**

**SANDS**

**Sweeping Jointing Sand - 66 lb/bag 50 Bags/Skid RS-SAND001**
Kiln dried and angular shaped in order to flow easily and stay in place.

**Polymeric Plus (RG+) Sand**
For Standard Joints - 50 lb/bag, 56 Bags/Skid (2860lbs/skid)
RS-SAND028 Tan / RS-SAND030 Grey  Available Colors: Grey and Tan
A special mix of graded sand and binder specifically formulated for achieving optimum lock-up of pavers or slabs by filling the joints between them. Unlike regular sweeping jointing sand, Polymeric Sand resists insect penetration, weed growth, and erosion. New formulation with half hour setting time.
Coverage: Approx. 75 sq. ft. /bag Coverage will vary depending on the type/size of stone used.

**Note: This product is recommended with extra care for use with Town Hall”**.

**Polymeric Max (HP+) Sand**
For Large Joints - 50 lb/bag, 56 Bags/Skid (2860lbs/skid)
RS-SAND065 Tan / RS-SAND064 Grey  Available Colors: Grey and Tan
This high-performance mix made of the latest generation of polymers are specially formulated for the filling of paver or slab joints in heavy-traffic areas such as pool decks, sloped driveways, public ways, etc. It is recommended for the replacement of existing joints because of its unrivaled effectiveness and durability.

For use where:
Max width: 2.5 cm (1”); a larger joint width is acceptable where the pavers intersect. Min depth: 3 cm (1.25”).
Coverage: Approx. Courstone - 1 bag covers approximately 25 sq. feet.

**Note: Extra care must be exercised when using this for Town Hall”**.
**EASY-PRO** - 50 lb container - premixed
Ultimate Paving Stone Joint Compound

Designed for installation in light rain or sun with a surface temperature above 32˚F, this pre-mixed epoxy resin product is ideal for residential driveways, patios, pool decks and walkways. It is also permeable.

Features: Vacuum packed, pre-mixed and ready to use, eco-friendly (60% renewable products), no haze formulation, for joint widths starting from 1/4” wide and 1 1/4” deep.

Colors: Tan, Black, Grey

Coverage: Approximately 75 sq. ft. /container. Coverage will vary depending on the type/size of stone used.

**Note:** This product is not suitable for all products. Please check with your representative with any questions.

**DRAIN-PLUS**
Permeable Joint Compound

Designed for installation in light rain or sun with a surface temperature above 32˚F, this epoxy resin product is ideal for residential driveways, patios, pool decks and walkways.

Features: Self compacting, water emulsifiable, quick re-opening to traffic, for joint widths starting from 1/4” wide and 1 1/4” deep.

Coverage: 1 bottle mixes with 50lbs #20 sand.

**Note:** This product is not suitable for all products. Please check with your representative with any questions.

**GATOR XP SUPERSAND BOND (XTRA PERFORMANCE)** - 50lb. bags (56bags/skid)
RS-SAND076 –Beige / RS-SAND077 – Slate Grey

For Concrete Paver, Wetcast & Natural Stone Joints up to 1.5”

Gator XP Sand is a unique mixture of polymer binders and calibrated sand available in Beige, Slate Grey and Ivory. The installation of Gator XP Sand Bond is almost identical to using regular paver joint sand, except for the application of water. Once Gator XP Sand Bond sets, it becomes very firm and locks between the paver joints. This firm bond maintains pavers securely in place, being equally effective on both horizontal and sloped surfaces.

**GATOR HP SAND BOND** - 50lb. bags (56bags/skid)
RS-SAND078 –Beige / RS-SAND079 – Ivory / RS-SAND080 – Slate Grey

Wetcast & Natural Stone Joints up to 1”

Supersand Bond is a unique mixture of polymer binders and calibrated sand available in Beige, Slate Grey and Ivory. The installation of Super Sand Bond is almost identical to using regular paver joint sand, except for the application of water. Once Super Sand Bond sets, it becomes very firm and locks between the paver joints. This firm bond maintains pavers securely in place, being equally effective on both horizontal and sloped surface.

**GATOR MAXX BOND** - 50lb. bags (56bags/skid)
RS-SAND074 –Beige / RS-SAND075 – Slate Grey

For Concrete Paver, Wetcast & Natural Stone Joints up to 1”

Gator Maxx Sand is the first polymeric sand specifically designed for drainage and non-drainage base systems. It can be used with concrete pavers, wetcast and natural stones. It is recommended for a variety of uses, including pool sides, patios, foot paths, driveways, parking spaces, pavements etc... This complete multi-purpose sand is available in three colors: Beige, Slate Grey and Ivory. It sets above the freezing temperature (32°F / 0°C) and can be used for joints up to a maximum of 1 inch.

**EUROSTONE BOND** - 50lb. bags (56bags/skid)
RS-SAND095–Slate Grey

For Driveway Aprons Application & Cobblestone Joints up to 3.5cm / 1”

Eurostone Bond is the first polymeric sand specifically designed for drainage and non-drainage base systems. It can be used with natural stones and cobblestone. It is recommended for a variety of uses, including streets, plazas (pedestrian and vehicular traffic) paths, sloping areas, around pools, etc... This complete multi-purpose sand is available in three colors: Beige, Slate Grey and Ivory. It sets above the freezing temperature (0°C / 32°F) and can be used for joints up to a maximum of 3.5 cm/ 1”.

**GATOR DUST BOND** - 50lb. bags (56bags/skid)
RS-SAND072 – Beige / RS-SAND073 – Slate Grey

For Stone Joints 1/2” to 4”

Gator Dust is a unique mixture of polymer binders and calibrated crushed stone available in Sahara Beige or Stone Grey. Once Gator Dust sets, it becomes very firm and locks between the stone joints. This firm bond maintains the stones securely in place equally effectively on both horizontal and sloped surfaces.

**GATOR AQUA ROCK** - 50lb. bags (56bags/skid)
RS-AGG032 - 50LB. BAG(56bags/skid) / RS-AGG033(2200LB. SuperSak)

For Permeable Paver Joints Graded ASTM NO.9 Granite Stone

Gator Aqua Rock is manufactured to meet ASTM No.9 requirements for permeable paver joint units. The calibrated gradation obtained from the fractured high-strength granite makes it the ideal product for the bedding course & jointing material to collect surface water run-off and help stabilize interlocking paver surfaces.
### SB-10 ADHESIVE

**SPECIFICATIONS** — (Conforms to UN-STD. 1804, ASTM 2339-70 & FHA UM-60)

**Color:** Natural Sand Color

**Base:** Rare Earths & High Strength Synthetic Rubbers & Resins

**Weight:** Over 8 lbs. Per Gallon (24 Cartridges at 26 lbs.)

**PACKAGING**
- 12 per case
- 10.5 oz Tube: 20’ at 1/4” bead. 140 cases/skid (1680 Tubes)
- 29 oz Tube 52’ at 1/4” bead. 60 cases per skid (720 Tubes)

**CLEANUP** — Use mineral spirits or chlorinated solvents — read solvent suppliers caution notes for use of this product.

**STORAGE** — Store in cool place — Rotate stock — Keep at 70°F for 24 hours before use in cold weather. Store cartridges in upright position.

### 3006 ULTRA ALL PURPOSE ELASTOMERIC SEALANT

3006 Ultra is a premium sealant featuring outstanding flexibility and adhesion to surfaces.

**Color:** Grey

- 40% more flexible than standard latex caulking
- Dries non-tacky
- Water clean-up
- Paintable
- Interior and exterior use

Exceeds requirements for Federal Specification TT-S-00230C Type II Class A and meets performance requirements of ASTM C-920 Class 35.

**PACKAGING**
- 10.5 oz Tube
- 12 per case

### WET LOOK WATER REPELLENT SEALER WL4

Made of acrylic and plasticizers, Wet-Look Paver Protector (WL4) is a wet-look, gloss-finish and microporous transparent coating that protects pavers made of concrete while enhancing their original color. It reduces oil and dirt penetration, and makes cleaning easier. Easy to apply, it penetrates the surface for maximum adhesion and durability. It will not peel or discolor. It resists the elements (freeze-thaw cycles, sun, rain, etc.), as well as calcium and salt. It also resists hot tire pick-up.

**Packaging:**
- 1 and 5 gallon available
- 55 gallon drum available on special order

**Note:** Carefully read all instructions and safety information on product label prior to application. For additional safety information, see MSDS. For outdoor use only.

### BP PRO WET LOOK JOINT STABILIZING SEALER

**RS-SEAL078 (1 gal) / RS-SEAL079 (5 gal)**

Designed specifically for use on block paving to seal the paver surface and fuse the joint sand. It is a solvent-based single component polymer that creates a semi-gloss finish. It has the consistency of a light oil and is clear in appearance. It has a strong odor when in its liquid state and dries to a transparent semi-gloss finish with a darkened wet look. It can be used outdoors on new and existing projects because it is UV stable. WetLook Stabilizing Sealer can be applied immediately because it is breathable and does not trap moisture and it has outstanding coverage. The product is easy to install and offers great stain and environment protection. Cured product is heat and freeze resistant.

**Packaging:**
- 1 gallon container
- Box of 4 x 1 gallon containers (4 x 1 US gal)
- 36 cases per skid (of 1 gal)
- 5 gallon pail (36 per skid)
- 55 gallon container (4 per skid)
- 80-100 sq.ft. coverage per gallon (approx.)

### BP PRO ENHANCED JOINT STABILIZING SEALER

**RS-SEAL042 (1 gal) / RS-SEAL043 (5 gal)**

BP Pro Enhanced Joint Stabilizing Sealer is designed specifically for use in block paving to stabilize joint sand and seal the paver surface. It is a water-based, single-component polymer that penetrates into the pores and seals the surface with a coating that creates a semi-gloss finish. Enhanced Joint Stabilizing Sealer is a green product that is solvent free and environmentally friendly. It is VOC, EPA, OSHA, and FDA compliant. It is non-hazardous and non-toxic. Stabilized joint sand will significantly reduce weeds and insect infestations. It is a dual-purposed surface and joint sand stabilizer.

**Packaging:**
- 1 gallon container
- 36 cases per skid (of 1 gal)
- 55 gallon container (4 per skid)
- Box of 4 x 1 gallon containers (4 x 1 US gal)
- 5 gallon pail (36 per skid)
- 80-100 sq.ft. coverage per gallon (approx.)

### SUREBOND JOINT STABILIZING SEALER - MATTE FINISH

**RS-SEAL037 (1 gal) / RS-SEAL036 (5 gal)**

SUREBOND JOINT STABILIZING SEALER is an epoxy modified, single-component VOC, EPA, and OSHA compliant, solvent-free, penetrating sealer that provides protection to interlocking paving stone installations against salt spray, acid rain, food and beverage stains, and other oxidizers. It binds joint sand together to ensure the integrity of the pavement by forming a homogeneous, flexible pavement that stops erosion or joint sand failures in large paver installations. This sealer is also used to seal retaining walls and for concrete and aggregate and split-face stone to protect against staining, salt spray, and acid rain damage and discoloration for architectural, industrial, and residential installations.

**Packaging:**
- 3.78 and 18 liter container (1 and 4.753 US gal)
- 27 cases per skid (162 Gallon)
- Approximate coverage 100-150 sq.ft. per gallon
- 6 per case (6 x 3.78 liter containers or 6 x 1 US gal)
- 5 gallon pail (36 per skid)
1. All orders are accepted subject to prevailing state or other taxes, and subject to the cost of freight applying at the time of shipment.
2. The acceptance by the seller of an order shall constitute a binding contract of purchase and sale in accordance with the terms set out in this agreement.
3. These terms and conditions together with the purchase order, form the complete contract and there are no representations, warranties, or conditions expressed or implied affecting this contract other than as contained herein.
4. All sales are made in accordance with the seller's samples, which the purchaser has seen and approved. No guarantee of exact color shades is made.
5. Delays incurred on delivery in excess of one hour will be billed to the purchaser at $80 per hour or fraction thereof. Similarly, delays incurred on partial delivery (1-7 bundles) in excess of one half hour will be billed to the purchaser at the same rate.
6. Use of any delivered materials by, or on behalf of the purchaser, shall be deemed to constitute acceptance of the materials by the Purchaser.
7. Excessive defective material picked up or delivered to the purchaser will be replaced free of charge if a claim is made within five days. Free replacement will be the extent of the Seller's warranty. Any such claim will not constitute a reason for delaying payment. All other claims must be submitted within 30 days of purchase.
8. Unsuitable or unsatisfactory materials must be available for inspection by the Seller to entitle the purchaser to any adjustment or credit.
9. No materials may be returned for credit except with the written consent of the Seller whether such materials were ordered in excess of the Purchaser's requirement, by mistake or otherwise. ACCESSORIES, SECTIONS AND OPENED MATERIAL ARE NON-RETURNABLE FOR ANY REASON.
10. Where the Seller agrees to accept the return of goods, these goods are subject to freight charges and a restocking charge of 20% of their value plus delivery.
11. All special run orders must be shipped within 30 days of the receipt of the order.
12. Seller does not accept responsibility for delays in deliveries due to fire, flood, strikes, or any other condition or contingencies beyond its control.
13. The Purchaser is responsible for installation of the materials on the job site and the Seller has no responsibilities in this regard.
14. All C.O.D. orders must be paid by certified check, cash or prior approved check.
15. All approved credit accounts are payable within thirty days from the date of invoice. After 30 days, interest will be charged at 1.5% per month (A.P.R. 19.65%) calculated monthly on the balance owing at the beginning of the period. In default of payment of any part of any money due under this account, the whole amount remaining unpaid shall, at the option of the Seller, immediately become due and payable.
16. Skid deposits are non-refundable with 2 or more broken top boards or one main stringer board. If you should have skids loaded onto your vehicle or receive a delivery with skids in this condition, you must have the Paveloc representative (loader or truck driver) notate the quantity on the shipping document paperwork.
17. Title and ownership of the goods shall not pass to the purchaser until the entire amount owing, including interest is paid in full.
18. In case of default by the purchaser, the seller may at any time without notice enter upon the premises where the goods are located and take possession of and remove them.

ADDITIONAL INFORMATION

1. All prices are F.O.B. Marengo IL. Please reference the freight price sheet in this Product Resource Guide.
2. Phone shipping desk for schedules, rates, and conditions.
3. Configurations may vary from time to time due to mold design changes.
4. There is a $14.00 deposit per skid, $13.00 of which is refundable when returned in good condition ($1.00 usage fee).
5. There is a $22.00 deposit for Ledgestone skids, $21.00 of which is refundable when returned in good condition ($1.00 usage fee). The credit is refundable upon return in good condition (See Terms and Conditions of Sale #16 for explanation of condition). It is the customer's responsibility to return pallets to the location where they were originally purchased for credit.
6. **Sectioning charge is $20.00 per section, per bundle.**

NOTE: Rates are based on current economic conditions and are subject to fuel surcharges, which will be based on the U.S. National Average Midwest rate of diesel fuel, calculated weekly. When the average price of fuel rises (or drops), the surcharge will take effect the following Monday. These rates can be located at [www.tonto.eia.doe.gov/oog/info/wohdp/diesel.asp](http://www.tonto.eia.doe.gov/oog/info/wohdp/diesel.asp)

**IMPORTANT NOTES**

Paveloc Paving Stones are manufactured to exceed the minimum standards set forth by the American Society of Testing Materials. Paveloc Pavers are warranted to maintain their structural integrity for a lifetime. Material installed following our installation guidelines that chips, splits, cracks or otherwise shows any structural deformity will be replaced. There is no warranty for the occasional appearance of efflorescence. This warranty is extended to the original purchaser of the product installed for residential use only. Color match cannot be guaranteed and replacement labor is not included. Paveloc cannot and will not be held responsible for compaction scuffs or burns on Paveloc paving stones.

Please note that the percentages and calculations found in this pattern guide only apply to the pattern itself. Each particular project has its own requirements for detail, contour, cutting, etc. Please take into account potential material waste, or lack thereof, when calculating paving stone quantities. Paveloc is not responsible or accountable for determining exact quantities for any paving stone order. Therefore, the percentages found in this resource guide should only be used as a guide to assist in order accuracy and efficiency.
